Full Stack Developer

Profile

Self-taught **Full Stack Developer** skilled in building scalable MERN applications – React, Node.js, Express, MongoDB, REST APIs, JWT auth, and third-party integrations, with a focus on clean architecture and responsive UI.

Education

Bachelor of Technology – Computer Science & Engineering

Sri Sukhmani Institute of Engineering & Technology, Derabassi

Expected Graduation: 2026

IKG Punjab Technical University, Jalandhar

Experience

Full Stack Development Trainee

Excellence Technology, Mohali

January 2026 – June 2026

Industrial Training (6 Months)

- Built and deployed real-world web app features, including REST APIs, authentication systems, and responsive React interfaces.
- Collaborated using Git, GitHub, and Agile workflows; handled API integration, debugging, and code reviews in a team setting.

Projects

PrepAI – AI Interview Preparation Platform

React 19, Node.js, Express, MongoDB, Groq (Llama 3.3/3.1), Puppeteer

Live | GitHub

- AI-powered platform that parses resumes, evaluates job-role fit, and runs interactive mock interviews and quizzes with performance scorecards.
- Implemented dual-model LLM fallback (Llama 3.3/3.1) and a custom sliding-window rate limiter for reliable, sub-second hint generation.

Velora – Full Stack E-Commerce Platform

React 19, Node.js, Express, MongoDB, Razorpay, Cloudinary, Google OAuth

Live | GitHub

- Dual-portal e-commerce app with a customer storefront and an admin dashboard tracking revenue, sales growth, and order status.
- Integrated Razorpay/COD checkout, Google OAuth, Cloudinary image hosting, and persistent cart sessions.

QuickEMS – Employee Management System

React 19, Node.js, Express, MongoDB, Inngest, JWT, Nodemailer

Live | GitHub

- Employee portal automating attendance tracking, leave approvals, and PDF payslip generation for Admin and Employee roles.
- Built Inngest-driven cron workflows for late/absence detection and email alerts, secured with JWT/Bcrypt role-based auth.

Technical Skills

- **Frontend:** React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS
- **Backend:** Node.js, Express.js, REST APIs, JWT Authentication, Bcrypt
- **Database:** MongoDB, Mongoose
- **AI & GenAI:** LLM Integration, Prompt Engineering, AI APIs
- **Tools & Platforms:** Git, GitHub, VS Code, Postman, Vite, Vercel, Render
